		with water for 15-20 minutes. Call a poison control center or doctor if irritation persists.
Eye contact	:	Hold eye(s) open and rinse gently with water for 15-20 minutes. If present, remove contact lenses after 5 minutes, then continue rinsing. Call a poison control center or doctor if irritation persists.
If swallowed	:	Call a poison control center or doctor immediately for advice. If able, have person sip a glass of water. Do not induce vomiting unless told to. Do not give anything by mouth to an unconscious person.
Most important symptoms and effects, both acute and delayed	:	None reasonably foreseeable.
Indication of any immediate medical attention and special treatment needed (note to physicians)	:	Treat symptomatically.

SECTION 5. FIRE FIGHTING MEASURES

Suitable extinguishing media	:	Use water spray, dry chemical, carbon dioxide (CO ₂), or alcohol resistant foam. Choose extinguishing media appropriate to local circumstances and the surrounding environment.
Unsuitable extinguishing media	:	For this substance/mixture no limitations of extinguishing agents are given.
Specific hazards during firefighting	:	Non-combustible, the substance itself does not burn. Development of toxic gases may occur from thermal decomposition or combustion in the event of a fire.

Protective equipment and precautions for firefighters	:	Wear self-contained breathing apparatus. MSHA/NIOSH approved (or equivalent) and full protective gear.
Further information	:	Use water spray to suppress or knock down vapors, mists, or dust. Prevent fire extinguishing water from contaminating surface water or groundwater systems.

SECTION 6. ACCIDENTAL RELEASE MEASURES

Personal precautions, protective equipment and emergency procedures	:	Avoid contact with eyes and skin. Do not breathe dust. Wear appropriate personal protective equipment (PPE) as required, including gloves, safety goggles and, if necessary, a dust mask. Stop source of spill as soon as possible and notify suitable personnel. Ensure adequate ventilation in the area and keep unprotected personnel away from the spill area. For personal protection section 8.
Methods and materials for containment and cleaning up	:	Sweep up and shovel into suitable container(s) for disposal. Avoid creating dust. Do not release into drains, soil or into surface water. For disposal see section 13.
Environmental precautions	:	Do not discharge into soil, drains, on the ground or water courses. Should not be released into the environment. Prevent further leakage or spillage if safe to do so. If released into rivers, lakes or drains, inform respective authorities.

SECTION 7. HANDLING AND STORAGE

Advice on safe handling	:	Keep away from heat. Take precautions to avoid mixing with combustibles. Do not ingest or swallow. Do not get in contact with skin, eyes and clothing. Provide adequate
